PROFESSIONAL SUMMARY

- Frontend-focused Software Engineer with 3.5 years of experience in enterprise web application development, UI enhancements, and feature implementation
- Experienced in JavaScript, HTML5, CSS3, frontend debugging, and user-focused application development
- Recently specialized in modern frontend technologies including React.js, Context API, Redux, REST API integration, Tailwind CSS, and responsive web design
- Passionate about building scalable, responsive, and user-centric web applications using modern frontend technologies.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

React Ecosystem: React Hooks, Context API, Redux, React Router

Web Development: REST APIs, Responsive Web Design, UI Development, Component-Based Architecture

Developer Tools: Git, GitHub, VS Code, NPM, GitHub Copilot, Claude

Development Practices: Debugging, Agile Methodologies, Problem Solving

EXPERIENCE

Software Engineer

June 2022 – Nov-2025

Cognizant Technology Solutions

- * Developed new application pages and frontend features while enhancing existing modules based on evolving business requirements.
- * Customized and enhanced user interface components to improve usability, consistency, and overall user experience across enterprise application modules.
- * Implemented error handling, debugging, and production issue resolution to improve application stability and user experience
- * Worked extensively with HTML, CSS, JavaScript, data binding, and component-level customizations within large-scale enterprise systems
- * Collaborated with cross-functional teams in Agile environments to deliver scalable application enhancements and support business objectives

PROJECTS

Gameverse App | *React.js, JavaScript, Tailwind CSS, React Router, Context API, Vite*

GitHub | Live - Gameverse | Portfolio

- * Developed a full-featured React application combining an interactive gaming platform and a developer portfolio within a multi-route architecture
- * Integrated RAWG REST APIs to dynamically fetch and render game data with loading states, error handling, and responsive UI components
- * Implemented reusable component architecture, custom React Hooks, Context API state management, and client-side routing using React Router
- * Built responsive user interfaces optimized for mobile, tablet, and desktop devices using Tailwind CSS and modern frontend development practices
- * Enhanced user engagement through scroll-driven animations, interactive UI elements, subscription workflows, and performance-focused frontend design.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

K.Ramakrishnan College of technology

2018-2022

Trichy, Tamil Nadu
